EXPERIENCE

BlueHeads Marketing

2025

Backend Intern

- Updated the 'Order' query backend call for a client website to fix correctness issues and improve performance.
- Added unit tests and validated the change on staging before deployment to the client environment.

PROJECTS

IIITConnect - Campus Utility Platform 🚀

2025

- Developed a distributed, SaaS-style MERN platform serving as a central hub for campus utilities, consolidating fragmented tools by 70%.
- Built **React dashboards** with analytics and user insights; integrated REST APIs for scalable data retrieval.
- Implemented a real-time messaging service using Node.js and WebSockets with a pub/sub model for fault tolerance.
- Optimized database schema (MongoDB) for role-based access and scalable associations; ensured high availability via Render/Vercel.

StudyNotion - Ed-Tech Platform 🚀

2024

- Built a secure learning platform with distinct student/instructor modules and course management.
- Implemented JWT authentication, RBAC, and input validation to ensure data integrity.
- Integrated media storage and payments with error handling for reliable performance.

CE-Bootcamp - Student Showcase Hub 🚀🚀

2024

- Addressed the challenge of limited interaction between college students.
- Developed a frontend web application to display student profiles, skills, and projects, fostering collaboration and talent recognition.
